Extending and Influencing Factors or Considerations

Demographic Characteristics-

Barriers to Successful Outcomes-The economy is still very slow. The general public is also having difficulty finding work.

Challenges-Funding and the low amount of referrals we are receiving for IVRS. Transportation tends to be a barrier as the taxi only runs during the day. Managed Care Organizations have taken over much of IME's responsibilities and it has been a year of transitioning and learning the MCO culture.

Other-

Business Function and/or Administrative Functions

Comp. Systems, Inc. only does Supported Employment in New Hampton. We are currently serving 4 individuals. Satisfaction is at 100% for the individuals.
